

### Access and Utilization of Agricultural Technologies

Region	Zone	Wereda	Average land holding	Average yield (major crops)	Percent of households using agricultural inputs							
					Use of fertilizer			Improved seed	Chemical pesticides	Agricultural extension service	Credit	Irrigated land (% of total cropped area)
Chemical	Manure	Both										

I will help you on the calculation of average yield and irrigated land (%). Others are simple

### Major Reasons of Crop Damage

Region	Zone	Wereda	Reasons of crop damage				
			Drought*	Crop diseases and pests	Flooding	Frost	Others

\*Note: Drought refers to rainfall shortage, erratic/irregular distribution of rain, late onset and early cessation of rain or a combination of two or more of these incidents in the wereda which resulted in crop damage on reduction of yield.
